

Relics Crafting Recipies

- [Relics Crafting Recipies](#)

Relics Crafting Recipes

This page is a placeholder for future relic crafting recipes.

Current status: relic mob drops are disabled in the live Relics config, and there are no active relic crafting recipes configured yet.

Planned Structure

- Each relic should eventually list:
 - the crafting grid
 - any required quality assumptions
 - whether the recipe is intended for early, mid, or late game
 - any mob, biome, or progression prerequisites

Notes

- The Relics plugin does support recipe-based relic acquisition.
- The current server config does not define any live relic recipes worth documenting yet.
- Once recipe balance is finalized, this page can be replaced with full crafting tables and progression notes.
